Cincinnati Bengals

Los Angeles Rams

### How to Play – Quick Rules

1. White squares are updated with the name of a person that purchased a square. Square placement can be random.
2. After White squares have been filled in the Gray squares are updated with a number value randomly assigned ranging from 0 to 9.
3. At the end of each quarter the last digit of the Rams score and the Bengals score will align to a White square. That square wins \$125.
4. A member of the Mafia team will contact you to give you your winnings.
